

Introduction

“Wine is not a product that you consume because you actually need it. You choose it to have a good time with your friends, to meditate, to philosophize.”

Stelios Kechris
Winemaker

I loved that phrase since the first time I heard him say it, because this is exactly what wine is all about!
And here at Alchemia, we all contribute to making this experience a special part of your visit.

We always strive to offer you exquisite, rare selections, of exceptional value and quality.
Within our wine list, we make sure you always find your choice, but also discover interesting new arrivals.

Our wine cellar is always updated, to complement the chef's creations, for a journey of pleasure with a glass of wine...or two!
